

Internal SIH 2026 - Task Details

DAY 1

IDEA FINALIZATION, SYSTEM DESIGN & FRONTEND PROTOTYPE

Task 1 — Problem Understanding, Solution Planning & System Design

Objective: Convert the SIH problem statement into a clear, feasible, and implementable solution and define the technical structure before development.

Teams must prepare:

- Problem statement understanding
- Proposed solution
- Unique Key features
- Target users
- **System Architecture**
- **Workflow/User Flow Diagram**
- **Data Flow Diagram**
- Module Definition
- Technology Stack

Mentor Review:

- Problem–solution alignment
- Technical feasibility
- Architecture and technology choices
- **System Architecture**
- **Workflow/User Flow Diagram**
- **Data Flow Diagram**
- Scalability
- Module clarity
- Innovation/uniqueness
